Date 30 June 2023

APPLICATION: TM/23/00974/FL

VALIDATED: 9 May 2023

This was approved in accordance with the following submitted details: Elevations PL(EP)10 received 09.05.2023, Elevations PL(EP)11 received 09.05.2023, Elevations PL(EP)12 received 09.05.2023, Elevations PL(EP)13 received 09.05.2023, Proposed Floor Plans PL(P)00 received 09.05.2023, Proposed Floor Plans PL(P)01 received 09.05.2023, Proposed Floor Plans PL(P)02 received 09.05.2023, Proposed Roof Plan PL(P)03 received 09.05.2023, Section PL(P)20 received 09.05.2023, Site Plan T001 01 received 09.05.2023, Planning, Design And Access Statement received 09.05.2023, Photographs X8 received 09.05.2023

APPLICANT: Sturdey
c/o David Upton The Old Chapel Ide Hill Sevenoaks TN14 6DB
PROPOSAL: Demolition of the existing Motorcycle garage and erection of 2 x 3 bed dwellings with associated off-street parking and private amenity space
LOCATION: 94C Shipbourne Road Tonbridge Kent TN10 3EG

**Town and Country Planning Act 1990
Town and Country Planning (Development Management Procedure) (England) Order 2015**

TAKE NOTICE that the TONBRIDGE AND MALLING BOROUGH COUNCIL, the District Planning Authority under the Town and Country Planning Acts, has **GRANTED PERMISSION** for the proposal as specified above, subject to the compliance of the following conditions:

1. The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason: In pursuance of Section 91 of the Town and Country Planning Act 1990.

2. The development shall be carried out in accordance with the plans listed in the section of this decision notice headed 'This was approved in accordance with the following submitted details'.

Reason: To ensure the development is carried out in accordance with the approval and to ensure the quality of development indicated on the approved plans is achieved in practice.

3. No development other than site survey work shall be commenced until the following have been submitted to and approved by the Local Planning Authority:

(a) a contaminated land desktop study identifying all previous site uses, potential contaminants associated with those uses including a survey of the condition of any existing building(s), a conceptual model of the site indicating sources, pathways and receptors and any potentially unacceptable risks arising from contamination at the site;

(b) based on the findings of the desktop study, proposals for a site investigation scheme that will provide information for an assessment of the risk to all receptors that may be affected including those off site. The site investigation scheme should also include details of any site clearance, ground investigations or site survey work that may be required to allow for intrusive investigations to be undertaken. If, in seeking to comply with the terms of this condition, reliance is made on studies or assessments prepared as part of the substantive application for planning permission, these documents should be clearly identified and cross-referenced in the submission of the details pursuant to this condition.

Reason: In the interests of amenity, public safety and human health and in accordance with the National Planning Policy Framework 2021 (paragraphs 183-185).

4. No development shall take place other than as required as part of any relevant approved site investigation works until the following have been submitted to and approved by the Local Planning Authority:

a) results of the site investigations (including any necessary intrusive investigations) and a risk assessment of the degree and nature of any contamination on site and the impact on human health, controlled waters and the wider environment. These results shall include a detailed remediation method statement informed by the site investigation results and associated risk assessment, which details how the site will be made suitable for its approved end use through removal or mitigation measures. The method statement must include details of all works to be undertaken, proposed remediation objectives, remediation criteria, timetable of works and site management procedures. The scheme must ensure that the site cannot be determined as Contaminated Land as defined under Part 2A of the Environmental Protection Act 1990 (or as otherwise amended).

The submitted scheme shall include details of arrangements for responding to any discovery of unforeseen contamination during the undertaking hereby permitted. Such arrangements shall include a requirement to notify the Local Planning Authority in writing of the presence of any such unforeseen contamination along with a timetable of works to be undertaken to make the site suitable for its approved end use.

b) prior to the commencement of the development the relevant approved remediation scheme shall be carried out as approved. The Local Planning Authority should be given a minimum of two weeks written notification of the commencement of the remediation scheme works.

Reason: In the interests of amenity, public safety and human health and in accordance with the National Planning Policy Framework 2021 (paragraphs 183-185).

5. Following completion of the approved remediation method statement, and prior to the first occupation of the development, a relevant verification report that scientifically and technically demonstrates the effectiveness and completion of the remediation scheme at above and below ground level shall be submitted for the information of the Local Planning Authority. The report shall be undertaken in accordance with DEFRA and the Environment Agency's 'Model Procedures for the Management of Land Contamination, CLR 11'. Where it is identified that further remediation works are necessary, details and a timetable of those works shall be submitted to the Local Planning Authority for written approval and shall be fully implemented as approved.

Thereafter, no works shall take place such as to prejudice the effectiveness of the approved scheme of remediation.

Reason: In the interests of amenity, public safety and human health and in accordance with the National Planning Policy Framework 2021 (paragraphs 183-185).

6. No development, other than the demolition of any buildings, removal of hardstanding, ground investigations or site survey works, shall take place until details of slab levels have been submitted to and approved by the Local Planning Authority. The details to include a scaled cross section showing the proposed development in relation to the adjacent buildings. The works shall then be carried out in strict accordance with those details.

Reason: To ensure the scale of the development is compatible with the character of the site and its surroundings.

7. Prior to first occupation of the building full details of noise mitigation measures taking into account the adjacent road shall be submitted and approved in writing by the Local Planning Authority. The details should consider the levels cited in BS8233:2014 and how these will be achieved, namely:

1. for gardens and other outdoor spaces, in particular those in para 7.7.3.2 which states a desirable limit of 50dB LAeq,1-hour, and a maximum upper limit of 55dB LAeq,1-hour; and
2. to at least secure internal noise levels no greater than 30dB LAeq, 8-hr (night) and 35dB LAeq, 16-hr (day) in bedrooms, 35dB LAeq, 16-hr (day) in living rooms and 40dB LAeq, 16-hr (day) in dining rooms/areas (ref para 7.7.2). Particular attention is drawn to the notes accompanying Table 4 in para 7.7.2 and that these levels need to be achieved with windows at least partially open, unless satisfactory alternative means of ventilation is to be provided.

The Applicant's attention is also drawn to the ProPG on Planning and Noise issued by the Association of Noise Consultants (ANC), the Institute of Acoustics (IoA) & the Chartered Institute of Environmental Health (CIEH).

The report shall detail any mitigation/attenuation measure needed to attain the abovementioned levels. It is important that the applicant's noise assessment includes specific data and we will require these details for approval before any decision can be made. Specific details of any necessary noise insulation/attenuation requirements (e.g. acoustic glazing, acoustically screened mechanical ventilation, acoustic fencing etc) will also need to be submitted for approval.

Reason: To ensure a suitable residential environment for future occupiers.

8. No above ground development, other than demolition or site survey work, shall take place until details and samples of materials to be used externally have been submitted to and approved by the Local Planning Authority, and the development shall be carried out in accordance with the approved details.

Reason: To ensure that the development does not harm the character and appearance of the existing building or visual amenity of the locality.

9. No above ground development, other than demolition or site survey work, shall take place until there has been submitted to and approved by the Local Planning Authority a scheme of landscaping and boundary treatment. All planting, seeding and turfing comprised in the approved scheme of landscaping shall be implemented during the first planting season following occupation of the buildings or the completion of the development, whichever is the earlier. Any trees or shrubs removed, dying, being seriously damaged or diseased within 10 years of planting shall be replaced in the next planting season with trees or shrubs of similar size and species, unless the Authority

gives written consent to any variation. Any boundary fences or walls or similar structures as may be approved shall be erected before first occupation of the building to which they relate.

Reason: Pursuant to Section 197 of the Town and Country Planning Act 1990 and to protect and enhance the appearance and character of the site and locality.

10. The dwellings shall not be occupied, until the area shown on the submitted layout referenced PL(P)00 received 9 May 2023 as vehicle parking and turning space has been provided, surfaced and drained. Thereafter it shall be kept available for such use and no permanent development, whether or not permitted by the Town and Country Planning (General Permitted Development) Order 2015 (or any order amending, revoking or re-enacting that Order) shall be carried out on the land so shown or in such a position as to preclude vehicular access to this reserved parking space.

Reason: To ensure that adequate parking is provided, maintained, and retained.

11. The proposed hardstanding shall be constructed of porous materials or provision made to direct surface water run-off from the hard surface to a permeable or porous area or surface within the curtilage of the dwellinghouses and vehicle parking areas hereby permitted.

Reason: Development of hardstanding without the suitable disposal of surface water is likely to lead to unacceptable surface water run-off onto land outside the ownership of the applicant.

12. If during construction works items or features of archaeological and historic importance are discovered, all development shall cease. It will then be necessary for the applicant, or their agents or successors in title, to secure the implementation of a watching brief to be undertaken by an archaeologist approved by the Local Planning Authority so that the excavation is observed and items of interest and finds are recorded. The watching brief shall be submitted to Local Planning Authority immediately on discovery of any historic item or feature.

Reason: To ensure that features of archaeological interest are properly examined and recorded.

Informatives:

1 During the demolition and construction phases, the hours of noisy working (including deliveries) likely to affect nearby properties should be restricted to Monday to Friday 07:30 hours - 18:30 hours; Saturday 08:00 to 13:00 hours; with no such work on Sundays or Public Holidays, and all contractor vehicles to be parked on site so as not to obstruct the public highway.

2 The disposal of waste by incineration is contrary to Waste Management Legislation and could lead to justified complaints from local residents. It is thus recommended that no bonfires are lit at the site.

3 The proposed development is within a road which has a formal street numbering scheme and it will be necessary for the Council to allocate postal address(es) to the new property/ies. To discuss the arrangements, you are invited to e-mail to addresses@tmbc.gov.uk. To avoid difficulties for first occupiers, you are advised to do this as soon as possible and, in any event, not less than one month before the new properties are ready for occupation.

4 Tonbridge and Malling Borough Council operate a two wheeled bin and green box recycling refuse collection service from the boundary of the property. Bins/boxes should be stored within the boundary of the property and placed at the nearest point to the public highway on the relevant collection day.

5 There is the possibility of asbestos containing materials being present in the structure. Before commencing any work, the applicant must organise an asbestos survey to be undertaken by a competent person. More information regarding the necessary precautions which must be implemented for the duration of the demolition can be found at <http://www.hse.gov.uk/asbestos/>.

In reaching this decision, the Local Planning Authority has had appropriate regard to the provisions of paragraph 38 of the National Planning Policy Framework 2021.

Eleanor Hoyle
Director of Planning Housing and Environmental Health

NOTE REGARDING PLANNING CONDITIONS

Please note that if conditions are attached to this permission, some of them may require the submission, pursuant to Article 27 of the Town and Country Planning (Development Management Procedure) (England) Order 2015, of details for the formal approval of the Local Planning Authority prior to the development commencing. The Borough Council may consider it appropriate to carry out consultations and other procedures prior to giving a formal decision on these matters and it is unlikely that this will take less than 4 weeks. This should be taken into account when programming the implementation of the permission. Any development that takes place in breach of such conditions is likely to be regarded as unlawful.

THIS IS NOT A BUILDING REGULATION APPROVAL

It is the responsibility of the developer to ensure, before the development hereby approved is commenced, that approval under the Building Regulations, where required, and any other necessary approval, have been obtained, and that the details shown on the plans hereby approved agree in every respect with those approved under such legislation.

IMPORTANT: Your attention is drawn to the Notes attached.

TOWN AND COUNTRY PLANNING ACT 1990

Appeals to the Secretary of State

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of this notice.*
- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of service of the enforcement notice, or within 6 months [12 weeks in the case of a householder appeal] of the date of this notice, whichever period expires earlier.
- If this is a decision to refuse planning permission for a minor commercial application, if you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.
- In all other cases if you want to appeal against your local planning authority's decision then you must do so within 6 months of the date of this notice.
- Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>. If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.
- The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. [Further details are on GOV.UK](#).
